

Details of Ph.D. students with Title of Thesis

S.No.	Name of candidate	Date of Award	Title of the thesis
1	Vikas Pareek	02/09/2020	MRI diffusion analysis during brain restructuring across ageing and neoplastic processes
2	Shashi Shekhar Kumar	15/06/2020	Neuroprotective role of Ube3a in a cell and an animal model of Huntington's disease
3	Naman Vatsa	19/09/2019	Dysregulated expression of microRNA-708 and its role in pathogenesis of Angelman Syndrome
4	Bharat Prajapati	11/09/2019	Identification of Association between Genetic Variants and Behavioural Profiles in Indian Population affected with Dyslexia
5	G Vinodh Kumar	27/08/2019	Large-scale neural dynamics of cross-modal speech perception
6	Reshma Bhagat	08/08/2019	Role of non-coding RNAs in Zika Virus-mediated neuropathogenesis
7	Abhishek Kumar Verma	25/10/2018	Inflammation Induced Neurodegeneration in Chandipura Virus Infection: From Molecular Mechanism to Therapeutic Intervention
8	Shalini Swaroop	04/10/2018	Deciphering the underlying mechanism of IL-1 β induced microglial activation : regulatory role of HSP60 in neuroinflammation
9	Brijesh Kumar Singh	16/04/2018	Understanding the Role of Ube3a in Progression of Alzheimer's Disease Using APPswe/PS1 δ E9 Mouse Model
10	Pushpa Kumari	19/02/2018	Regulatory mechanism of synapse formation by non-canonical function of Ubiquitination
11	Avantika Mathur	18/01/2018	Characterising the Emotions Experienced by North Indian Classical Ragas – Behaviour and Neuroimaging Study
12	Imran Jamal	01/09/2017	Effect of environmental enrichment and histone deacetylase inhibitors on mouse model of angelman syndrome
13	Himakshi	27/07/2017	Curcumin-Mediated Induction of Proapoptotic Bax Genes is Associated with Apoptosis in Mouse Neuro 2a Neuroblastoma Cells and Involves Activation of p53
14	Priyabrata Halder	12/05/2017	Mechanisms of plasticity of somatosensory pathway after spinal cord injuries in macaque monkeys
15	Deepak Poria	22/03/2017	Understanding Signal Processing in Inner Retina after Photoreceptor Degeneration
16	Kaushik Pramod Sharma	21/03/2017	Mechanisms of synaptic plasticity in the hippocampus
17	Mahar Fatima	09/02/2017	Cellular Mechanisms Contributing to HIV-1-Associated Neurocognitive Disorders
18	Fahim Ahmad	05/12/2016	Telomere in Metabolic Programming and Survival Responses in Glioblastoma Multiforme
19	Suhela Kapoor	06/09/2016	A Computational Systems Biology Approach to the Performance Optimization of Cell Population Dynamics : Implication for Cerebrovascular and Neuro-oncological Disorders

S.No.	Name of candidate	Date of Award	Title of the thesis
20	Manju Tewari	11/08/2016	Role of ligand gated purinergic receptor P2X7R in HIV-1 Neuropathogenesis
21	Sarika Cherodath	08/07/2016	Neural mechanisms of reading in Hindi-English biliterate children
22	Sourish Ghosh	30/05/2016	Deciphering Mechanism of Neuronal Death in Chandipura Virus (CHPV) infection : from Molecules to Network
23	Piyushi Gupta	13/04/2016	IL-1 β signalling in metabolic adaptation, survival and immune evasive responses in glioma
24	Atul Gopal P.A	12/02/2016	Computational Mechanisms of Eye-Hand Coordination
25	Ajit Ray	03/12/2015	The role of redox modifications of protein thiols in the pathogenesis of neurodegenerative disorders
26	Manvi Goel	09/11/2015	Role of Müller glial cells in retinal degeneration
27	Rahul Chaudhary	12/10/2015	Effects of chronic and acute injuries on brain functions
28	Mohammed Hisham P.M	03/09/2015	Organization of the Rat Motor Cortex: Insights from Thalamic and Cortical Afferents
29	Ruchi Ghildiyal	03/08/2015	Study of IFN γ -associated signalling and metabolic adaptations in glioblastoma: Implications for therapy
30	Sadashib Ghosh	10/06/2015	Regulation of Major Histocompatibility Complex Class I in glioblastoma: Role of hypoxia inducible factor-1 α
31	Subhadip Paul	05/06/2015	Higher Order Diffusion Tensor Imaging and Stochastic Perturbation Response in Brain Tumour
32	Pankaj Sadashiv Ghate	06/04/2015	Development of a Novel Cellular Model of Alzheimer's Disease Utilizing Neurosphere Cultures and Alteration of p75NTR, DR6 Expression and RIP1 Proteolysis in B6C3-Tg (APP ^{swe} ,PSEN1 ^{dE9}) Mouse Brain
33	Shilpa Mishra Shukla	08/01/2015	Neuroprotection against Amyloid Beta-Induced Toxicity and effects of Amyloid Beta on Growth Factor Signaling
34	Kiran	31/12/2014	Protein Modifications: Relevance to Synaptic Plasticity and Memory
35	Shaily Malik	31/12/2014	Cellular and Molecular Events during HIV-1 and Drug Abuse Co-morbidity
36	Deobrat Dixit	10/11/2014	Study of Signaling and Transcriptional networks underlying resistance to apoptosis in Glioblastoma
37	K. M. Sharika	21/8/2014	Contextual control in the planning of sequential saccades
38	Varsha Jain	22/7/2014	Brn3-Expressing Retinal Ganglion Cells and Their Role in Vision
39	Megha Sharda	02/06/2014	Auditory Processing in Autism Spectrum Disorders
40	Arshed Nazmi	05/05/2014	Role of Pattern Recognition Receptors in the pathogenesis of Japanese Encephalitis and Novel Therapeutic Strategies

S.No.	Name of candidate	Date of Award	Title of the thesis
41	Megha Maheshwari	01/05/2014	Role of Ube3a and heat shock factor-1 in progression of Huntington's disease
42	G. Swetha Kameshwari	01/05/2014	Elucidating importance of coactivator role of Ube3a and glucocorticoid signaling in the pathogenesis of Angelman Syndrome
43	Niranjan A. Kambi	16/4/2014	Extent and Mechanisms of Plasticity in the Somatomotor Cortex following partial spinal cord injuries in monkeys
44	Neha Bhutani	08/01/2014	Temporal control of sequential eye movements: evidence from behavioral psychophysics, Parkinson's disease patients and pharmacological inactivation in monkeys
45	Rupali Srivastava	20/12/2013	Conditional Math1 over-expression in mouse embryonic stem cells specifies the cerebellar granule neuron identity
46	Leslee L	28/11/2013	Information processing in the hand representation of primary somatosensory area
47	Neha Sehgal	24/06/2013	Discovery, development of drugs for Alzheimer's disease, neuroinflammation and elucidating their molecular mechanism of action
48	Deepak Kumar Kaushik	23/05/2013	TO STUDY THE MOLECULAR MECHANISMS OF NEUROINFLAMMATION: ROLE OF KRÜPPEL LIKE FACTOR 4 AND NLRP3 INFLAMMASOME IN MICROGLIAL ACTIVATION
49	D. Lalitha	27/12/2012	Redox signaling mechanisms and altered gene expression mediated by dopaminergic neurotoxin, MPTP : Implications in Parkinson's disease
50	Sudheendra Rao N R	21/12/2012	Protein aggregation, sequestration and ubiquitin proteasome system dysfunction in the pathogenesis of Lafora disease
51	Jai Prakash Sharma	26/09/2012	Identification and characterization of substrates of Malin, an E3 Ligase Mutated in Lafora Progressive Myoclonus Epilepsy
52	Parthiv Haldipur	26/09/2012	The Role of Sonic Hedgehog signaling in the proliferation and differentiation of cerebellar granule cell progenitors
53	Chinmoyee Maharana	26/09/2012	Activity-Dependent Posttranslational Modifications of Proteins: Implications for Synaptic Plasticity and Memory
54	Arjun R	26/7/2012	Voluntary Control Of Saccadic Eye Movement Planning
55	Richa Tewari	26/7/2012	STUDY OF ABERRANT, PRO-SURVIVAL CELLULAR SIGNALING CASCADES IN GLIOBLASTOMA: IMPLICATIONS IN THERAPEUTICS
56	Tanusree Das	26/7/2012	Cortical Reading Networks in Hindi-English Bilinguals
57	Nitin Koul (26/7/2012	Understanding the implications of insulin-like growth factor (IGF-1) induced signaling in Glioblastoma
58	Shalaka Ajit Mulherkar	26/7/2012	Characterization of Motor Deficits in a mouse model of Angelman syndrome:
59	Ziauddin	26/7/2012	Influence of cortical injuries on somatosensory function
60	Manisha Chugh	26/7/2012	Influence of lesions of motor cortex on somatosensory function

S.No.	Name of candidate	Date of Award	Title of the thesis
61	Varsha Agarwal	26/7/2012	Identification and functional characterization of brain specific cytochrome P450 enzymes
62	Vivek Sharma	26/7/2012	Inflammation in Glioblastoma: Implications for Therapy
63	Shashank Tandon	26/7/2012	Reorganization of the sensorimotor cortex following partial spinal cord injuries
64	Sulagna Das	26/7/2012	Modulation of the fate of neural stem/progenitor cells in japanese encephalitis: Implications in viral neuropathogenesis
65	Alok Gupta	26/7/2012	Evaluation of molecular basis underlying the efficacy of Withania somnifera extract in reversing the behavioural deficit and alleviating the pathological symptoms in mouse models (APPSWE-PsdE9, APPSWE-IND) of Alzheimer's disease
66	Nazia Khurshid	26/7/2012	Role of Opioid System in Behaviour and Cell Proliferation in Adult Male Zebra finches (Taenopygia guttata)
67	Uzma Saeed	26/7/2012	Role of glutaredoxin as a redox modulator and elucidation of cell death mechanism triggered by MPTP
68	Shailesh Kumar Gupta	26/7/2012	Role of GAP-43 in centrosome orientation in mouse cerebellar granule neurons
69	Manoj Kumar Mishra	26/7/2012	To study the aberrant glial response in Japanese Encephalitis: from molecular mechanism to therapeutic intervention
70	Khundrakpam Budhachan	26/7/2012	A Generalized Tensor Approach to Brain Imaging
71	Mamata Mishra	26/7/2012	Understanding Molecular Basis of HIV-1 Tat-Induced Complications in Human Fetal Brain Cells
72	Latika Singh	26/7/2012	Development of articulatory features in children
73	Manoj Kumar	26/7/2012	Neuronal differentiation and subtype specification in embryonic stem cells
74	Smitha Karunakaran	27/4/2009	Cell death mechanisms in Parkinson's Disease
75	Amit Kumar Mishra	27/4/2009	Understanding the molecular function of E6-AP-a putative E3 ubiquitin ligase mutated in Angelman mental retardation Syndrome
76	Sandeep Kumar	27/4/2009	Understanding the molecular mechanism of photoreceptor-specific gene regulation in retina
77	Anand Goswami	27/4/2009	Understanding the role of Oxidative stress, ER stress response and transcriptional deregulation of NF-KB in the cellular model of Huntington's Disease
78	Priyanka Dikshit	27/4/2009	Role of Ubiquitin Protein Ligases and Proteasome inhibitors in the Pathogenesis of Polyglutamine Diseases
79	Supriya Ray	30/1/2009	The control of sequential eye movements
80	Rashmi Mishra	30/01/2009	Novel functions of GAP-43 in CNS morphogenesis

S.No.	Name of candidate	Date of Award	Title of the thesis
81	Kommaddi Reddy Peera	30/1/2009	Study on Cytochrome P450 enzymes in Human Brain
82	Latha Diwakar	14/8/2006	Gender related difference in pathogenesis of neurodegenerative disorder: role of mitochondrial dysfunction and protein thiol homeostasis
83	Rajappa S.Kenchappa	14/8/2006	Mitochondrial dysfunction and protein thiol Homeostasis in neurodegeneration
84	Harish V. Pai	14/8/2006	Drug biotransformation pathways mediated by brain specific cytochrome P450
